Office of the Legislative Counsel

25X1

Tuesday - 21 July 1959

25X1

✓ 1. [] along with Messrs. [] (Personnel), sat in on the House Post Office and Civil Service Committee hearings on pending health insurance bills. Hearings will continue on Thursday, 23 July. (See Memorandum for the Record for complete details.)

2. Delivered to Robert Smart of the House Armed Services Committee Staff the corrected Committee copy of the Kilday Committee briefing on 7 July.

4. [] Legal Counsel for NSA, called to chat about the Overseas Allowance Bill reported by the House Post Office and Civil Service Committee (H.R. 7758). The conversation then shifted to the health insurance proposals pending before that Committee. NSA apparently has not yet given serious consideration to the effect which this legislation might have on their program. Request was made to [] to let us know if NSA proposed to approach the Committee on the Bill. He promised to do this, however, he felt that they would probably "rock along" with the Bill.

6. [] telephoned to advise that General Cabell accepted the recommendation that the Director as well as General Cabell be included in the proposed visit with Representatives Tom Murray (D., Tenn.) and Edward H. Roes (R., Kan.)
